

Syntax Console Trax System

Trax System is a range of console system combining 19" cabinets with a track system for LCD displays. Being modular, the Trax System is a highly versatile mixture of 19" cabinet and Track rails, with the ability to include integration of LCD arms and brackets for further requirements. With the durable and sturdy track system, Trax System is equally ideal for heavy duty systems with 46" and above LCD displays, producing an arena overview effect at the same time.
