

Syntax-Network Power Manager (19" Rack Mount Series)

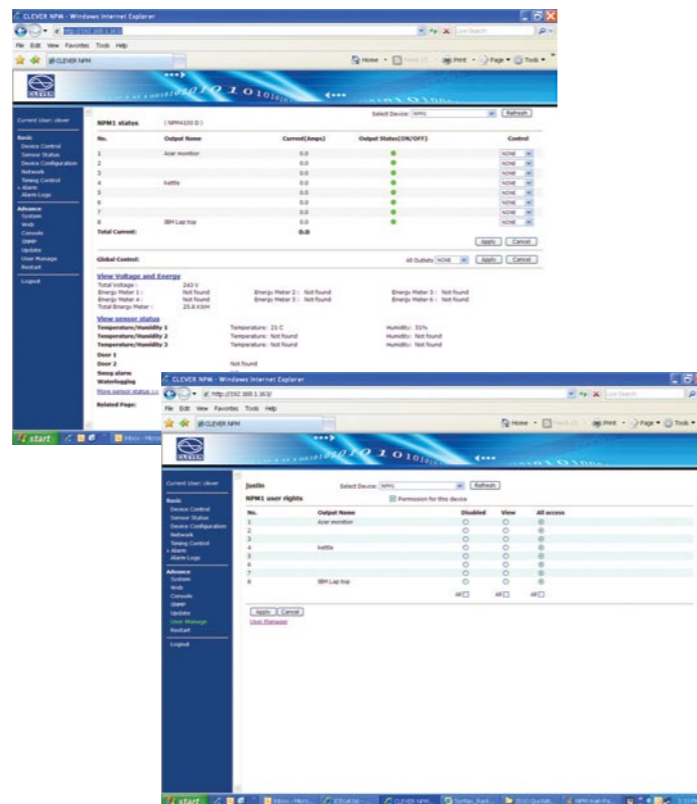

NPM 19" Rack Mount Series

NPM 3100 D series allows for easy and flexible mounting as this series of NPM is specially designed and incorporated into limitation of 19" rack mounting space.

Main functions of NPM3100 D-series:

- 1. Remotely monitoring:**
 - Total load current
 - Load current of each outlet
 - Power on/off state of each outlet
 - System operating state
 - Server operating state
 - T/H smog, door opening & water-logging state
- 2. Remotely controlling**
 - Power on/off of each outlet
 - Set interval of sequential power on/off of the outlets
 - Set the time to power on/off of the outlet
- 3. Set the limiting value to alarm**
 - Limiting range of total load current
 - Limiting range of the load current of each outlet
 - Limiting range of T/H
- 4. Keep the original state of each outlet when reset**
- 5. System automatic alarm when limiting range is exceeded**
- 6. Current consumption measurement (optional)**
- 7. Embedded controlling software system (multi-user optional, support software update)**

Ordering Information and Physical Characteristics:

Product code	Front		Rear	
	Socket standard	Outlet quantity	Socket standard	Outlet quantity
